RING SIZE CHART

Option 1
RING SIZER STRIP

Read Size Here

EFGHIJKLMNOPQRSTUVWXYZ+1+2+3
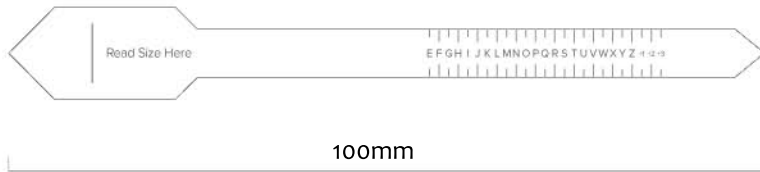

100mm

Note: Please ensure that the line above is printed at 100mm

Cut out the Ring Sizer shape and cut a slit indicated by the vertical line. With letters facing ourward on the finger, insert the end through the slit. Pull the end through the slit until the sizer is snug (but not too tight!) on the finger.
The letter lining up closest to the slit indicates your finger size.

Option 2
EXISTING RING SIZE

If you have an existing ring that fits the desired finger, place it over the circle that matches closest to the ring. Note: The inside of the ring must only just show the whole of the matching circle.

READ THIS BEFORE PRINTING

To print this page accurately, please make sure your print setting is at 100%.
DO NOT print as *Fit to Page*.
Once printed, measure the Ring Sizer Strip line. It must be 100mm.

Please be aware, not all ring sizing tools are 100% accurate as there is no univeral standard. We will do our best to make your ring size as accurately as possible.
